# Contents

## SECTION I

<i>The Epidemiologic Approach to Disease and Intervention</i> . . . . .	1
CHAPTER 1	
Introduction . . . . .	3
CHAPTER 2	
The Dynamics of Disease Transmission . . . . .	14
CHAPTER 3	
Measuring the Occurrence of Disease . . . . .	31
CHAPTER 4	
Assessing the Validity and Reliability of Diagnostic and Screening Tests . . . . .	63
CHAPTER 5	
The Natural History of Disease: Ways of Expressing Prognosis . . . . .	82
CHAPTER 6	
Assessing the Efficacy of Preventive and Therapeutic Measures: Randomized Trials . . . . .	100
CHAPTER 7	
Randomized Trials: Some Further Issues . . . . .	110

## SECTION II

<i>Using Epidemiology to Identify the Cause of Disease</i> . . . . .	129
CHAPTER 8	
Cohort Studies . . . . .	131
CHAPTER 9	
Case-Control and Cross-Sectional Studies . . . . .	140
CHAPTER 10	
Estimating Risk: Is There an Association? . . . . .	158
CHAPTER 11	
More on Risk: Estimating the Potential for Prevention . . . . .	172
CHAPTER 12	
A Pause for Review: Comparing Cohort and Case-Control Studies . . . . .	180

CHAPTER 13  
From Association to Causation: Deriving Inferences  
from Epidemiologic Studies ..... 184

CHAPTER 14  
More on Causal Inferences: Bias, Confounding, and Interaction ..... 204

CHAPTER 15  
Identifying the Roles of Genetic and Environmental Factors  
in Disease Causation ..... 219

**SECTION III**

*Applying Epidemiology to Evaluation and Policy* ..... 241

CHAPTER 16  
Using Epidemiology to Evaluate Health Services ..... 243

CHAPTER 17  
The Epidemiologic Approach to Evaluation of Screening Programs ..... 258

CHAPTER 18  
Epidemiology and Public Policy ..... 277

CHAPTER 19  
Ethical and Professional Issues in Epidemiology ..... 289

ANSWERS TO REVIEW QUESTIONS ..... 298

INDEX ..... 300
