

CONTENTS

CHAP.	PAGE
I. THE AIM OF THE STATISTICAL METHOD	1
II. COLLECTION OF STATISTICS : SAMPLING	14
III. COLLECTION OF STATISTICS : SELECTION	25
IV. COLLECTION OF STATISTICS : FORMS OF RECORD AND INQUIRY	40
V. PRESENTATION OF STATISTICS	51
VI. THE AVERAGE	70
VII. THE VARIABILITY OF OBSERVATIONS	85
VIII. CALCULATION OF THE STANDARD DEVIATION	98
IX. PROBLEMS OF SAMPLING : AVERAGES	108
X. PROBLEMS OF SAMPLING : PROPORTIONS	122
XI. PROBLEMS OF SAMPLING : DIFFERENCES BETWEEN PROPORTIONS	133
XII. PROBLEMS OF SAMPLING : DIFFERENCES BETWEEN AVERAGES	143
XIII. PROBLEMS OF SAMPLING : χ^2	162
XIV. FURTHER EXAMPLES AND DISCUSSION OF χ^2	162
XV. THE COEFFICIENT OF CORRELATION	180
XVI. CALCULATION OF THE CORRELATION COEFFICIENT	193
XVII. STANDARDISED DEATH-RATES AND INDICES	201
XVIII. LIFE TABLES AND SURVIVAL AFTER TREATMENT	220
XIX. MEASURES OF MORBIDITY	237
XX. CLINICAL TRIALS	243
XXI. COMMON FALLACIES AND DIFFICULTIES	267
XXII. FURTHER FALLACIES AND DIFFICULTIES	279
XXIII. FURTHER FALLACIES AND DIFFICULTIES	291
XXIV. STATISTICAL EVIDENCE AND INFERENCE	302
DEFINITIONS	315
CLINICAL RESEARCH	
(a) Responsibility in Investigations on Human Subjects. Statement by the Medical Research Council.	320
(b) Declaration of Helsinki of the 18th World Medical Assembly, 1964.	324
EXERCISES	320
ANSWERS TO EXERCISES	337
RANDOM SAMPLING NUMBERS	358
TABLE OF χ^2	374
TABLE OF "t"	376
INDEX	377
